10 More Details

- 3 throwing wheels: delivers any combination of topspin/backspin combined with sidespin.
- Cantilevering arm system: maintains proper throwing head position through entire range of motion.
- H-Shape base: maneuvers through narrow doorways/entrances while providing complete stability.
- Ball storage bin: “bullet-proof” and transparent polycarbonate holds 200 balls.
- Polyester powder coated paint: extremely weather resistant in any climate.
- Control panel: Designed for simplicity and ease of use in private, club, and team settings.
- Lift control: Flip one switch for the machine to effortlessly go up or down as desired.
- Arc control: Turn a level arm on the machine to vary ball arc.
- Heyco-Flex tubing: Weather resistant tubing protects wiring system.
- Open motor housing: Unlike other machines, the ball fuzz does not accumulate inside the “case” of the machine. The result? No need to regularly clean the machine.

Warranty Statement

We stand behind the material and workmanship of our machines for five (5) years from the date of original purchase for institutional and residential use and one (1) year for commercial environments, with the following exceptions: The throwing wheels, electronic controller, and throwing wheel motors are all covered for two (2) years. This warranty excludes any cosmetic issues or normal wear and tear of the unit, and is not in effect if the machine has been misused, misapplied, improperly assembled, or modified without the express written permission of Sports Attack. This warranty also does not apply to damage in transit, in any accident unrelated to the direct operation of the equipment, or by fire, flood, or act of God. If you encounter any issues during your warranty period, Sports Attack will quickly get your machine back in working order. If the warranty repair involves a replacement part, we will make sure you get both the part and easy instructions for replacement at no cost to you. If a service person is needed, Sports Attack will pay a pre-approved labor charge to repair the machine.
